Seeding
the Creative Matrix of Heaven on Earth

July 17 –
23, 2011

A Shamanic Journey into
6 Sacred Mountains & Lakes along with Ancient Stone Chambers and other
natural sacred and power sites of Vermont and New Hampshire, which compose a nearly
perfect Star Tetrahedron, and hold and activate a special relationship in the
lightbodies and fundamental forces of Creation, of the Earth and Sky.

Zacciah Blackburn, Ph.D., Director of the
Center of Light Institute for Soun Healing and Shamanic Studies offers this
wonderful program:

3 Lakes, and 3
Mountains, compose a living vortices of primal earth & celestial energies
manifesting perfect union of the principals of the Divine Feminine and
Masculine, in New England. Such perfect geometries exist world
wide. Yet, they are rare, and unique. This 'field of intelligence,'
created and generated by this living relationship of primary energies, sustains
a thriving vital interrelationship between worlds, between heaven and earth, a
sacred union, which, when we engage in living and right relationship, interacts
with us in ways, thus far, beyond many of our imaginations. We hold a responsibility
as caretakers of each of these sacred sites, to enter and maintain right
relationship with these living forces of Creation. Please visit our site ,
