Doorway to the Ancestors:

Receiving Our Devine Inheritance

Preparing the Body, Mind, and Soul, for the Great Transformation in Human Consciousness;

Living, Learning, and Building Harmonious Relationships

With All Aspects of Creation

With Zacciah
Blackburn, Ph.D.

Zacciah Blackburn, Ph.D. , Director of the Center of Light Institute of Sound Healing and Shamanic Studies , presents this practice, in which we will be exploring and working with specific passageways of healing, especially those related to ancestral pathways which often hold key encodings and beliefs which may limit our realities and perceptions, of ourselves, and the world around us, and how we interact with them.

We carry many 'wrappings', 'sheaths,' or veils of limiting beliefs and perceptions which are, often, handed down to us generationally, and which we may, also, carry with us through lifetimes without realization or resolution. Many of us, also, carry, trauma and abuse from this and other lives which have not been fully healed or resolved, and which, both, dampen our emotional and mental fields, and limit our abilities to stretch into the greater truth of who we are as spiritual beings.

These can be encoded at a physiological level, within our genes, or DNA encodings. It is here, when we enter the subtle and (subatomic) level of our being, entering the realms and spheres of light, that we can both dissolve these ancient encodings, and re-orient our awareness and existence around the original instructions of our most ancient lineages, which are pure, light, and filled with the essence and heart of Creation.
