

I forgot my Password. Now what?

Last Updated Monday, 25 February 2008

If you forgot your password click [here](#) and type in your username and email address. (for this to work, you must use your correct username for the site, as well as the email address currently recorded in your profile. Your password will be sent to the email address recorded. For this reason its important to keep your email address updated. If your recorded email address is no longer valid, you will not be able to retrieve your password if you forget it. If that happens.... Not to Worry just contact an administrator and they will reset your email address to your current valid one. Then you can try the above again to get your password sent via email.
